

# **SHERBORNE**

## **Box Pouch Product Specifications**

Designed specifically for coffee, these box pouches combine clean lines with high quality kraft to provide a sharp profile with exceptional shelf presence.

These box pouches are fitted with an Easy Open Ziplock for consumer use and have a wide open top that is great for automated or hand filling. The inner plastic layer is designed to allow these bags to be heat sealed. The PBi Filtered Valve is a one way valve designed to allow gas produced by coffee beans to escape, without letting an oxygen in.

All of our stock products are certified food grade and contain a plastic lined inner layer to help ensure product freshness.

Our stock packaging is available to purchase immediately with low minimum order quantities and are a great option for branding using labels/stickers or stamps.

Box Pouches are available in;
